SAMPE EUROPE SEMAT 12 SYMPOSIUM ON AUTOMATION

SAMPE (Society for the Advancement of Material and Process Engineering) invites you to the 2nd International SAMPE Symposium on „Automation in Composite Technologies“. The symposium will be held in parallel with the AUTOMATICA Trade Fair (May 22nd - 25th 2012), this being one of the biggest events in the field of automation and mechatronics world wide attracting more than 32.000 visitors every second year (www.automatica-munich.com).

Automation is one of the most important enablers for the more intensive and successful use of composites in all application fields, especially for automotive industry with its large volumes and cost pressures. Also in aerospace and wind energy advanced material technologies, fast infusion and curing, fibre placement, textile preforming, assembly and simulation along the whole process chain have to be considered in order to compete with existing metal components.

Program overview:

- I. Keynotes
- II. Needs from different markets (Aerospace, Automotive, Windenergy, ...)
- III. Technologies for Automation
- IV. Materials, Processes and Simulation
- V. Applications and Lessons Learned

In the evening of the first day the attendees will be invited to the evening event of the Automatica Trade Fair.

Location: New Munich Trade Fair Centre, Munich Riem
20 minutes from Munich Airport and 20 minutes from Munich Main Station

Fees: 600 € for SAMPE members - 660 € for non-members

Including: Proceedings (CD-Rom)
Lunches, Coffee Breaks
Participation to the AUTOMATICA Exhibitor Dinner Event at Munich Trade Fair Complex, May 24th Evening
Free Entrance to Automatica Exhibition

Dates: 24th and 25th of May, 2012
