FAST MOVING TECHNOLOGY

STÄUBLI

Innovation is a path, not a destination.

At Stäubli, innovation is an ongoing pursuit. While we celebrate a history filled with technological breakthroughs, our eyes remain fixed on the future. Continually developing solutions to meet new challenges, maximize productivity and minimize downtime in a range of industries is our mission.

Here's a glimpse of some of the things you will see at Stäubli Technology Days 2010:

Textile Division: Jacquard, cam motion and delta machines, with demonstrations of state-of-the art weaving and weaving preparation.

Connectors Division: Quick magnetic clamping systems and tool changers, plus a Jankel J8 military Jeep and several race cars including a NASCAR stock car, Ferrari GT and Volkswagen TDI - all of which utilize Stäubli connector technology.

Multi-Contact: Live demo featuring robotic assembly of electrical connectors for the solar industry, along with a full range of electrical connectors.

Robotics Division: Live demos on applications for a variety of industries including solar, life sciences, food and semiconductors, including robots capable of vapor hydrogen peroxide sterilization and vision-guided tracking.

Stäubli technology experts from all over the world are on hand to answer your questions and help you make the most of this exciting event.

The event is FREE so register today by mailing or faxing in the form in this brochure, or visit www.staubli.com/techdays.

Speakers:

Mark Senti - Advanced Magnet Labs
"Automation & Manufacturing Opportunities in Renewable & Alternative Energy"

Jeff Fryman - RIA
"Safety in Robotic Automation"

Tom Reek - Schunk
"Applying Mechanical Grippers for Robotic End of Arm Tooling"

Sebastian Vandelden - USC Upstate
"Getting your Robotics Arms around Computing Curricula"

Mike Hubbard - National Council of Textile Organizations
"The US Textile Industry - Making an Impact in Washington"

Abdel-Fattah Seyam - College of Textiles, NC State University
"Opportunities in Jacquard Weaving"

Oliver Meier - EAT Inc., The Design Scope Company
"Advantages of Web Based Loom Networking"

Rusty Roberston - Stäubli Corporation
"Quick Disconnects in Thermal Management Applications"

Chris Eason - Stäubli Corporation
"Remote Handling Operations in Radiological and Hazardous Environments"

And more! For the latest list of speakers, visit www.staubli.com/techdays.

Registration

Please return form by **September 10, 2010**. You can also register online at www.staubli.com/techdays.

Yes, I/we will be attending Stäubli Technology Days and would like to register for the following date:

Thursday, September 23 Friday, September 24

First Name: _____

Last Name: _____

Company: _____

Title: _____

Address: _____

Telephone: _____ E-mail _____

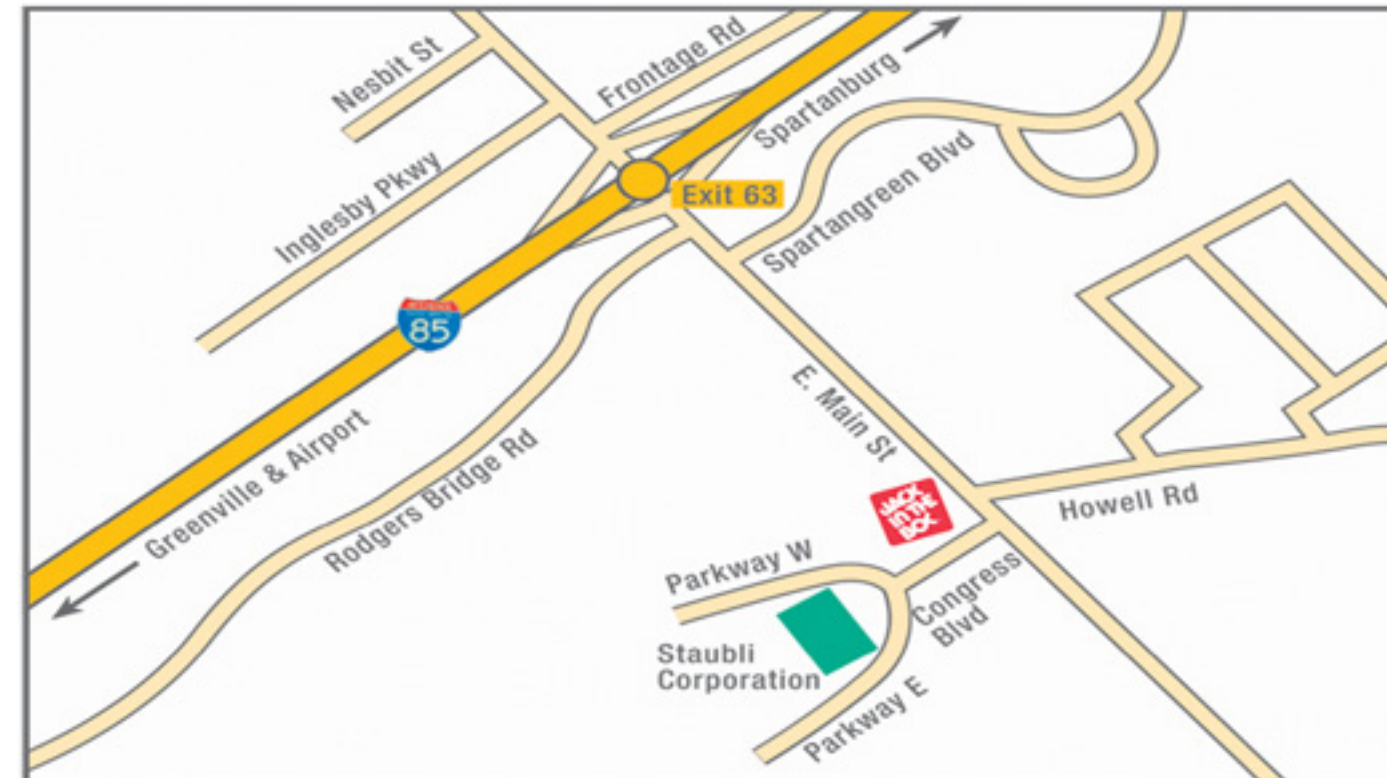

Additional Participants: _____

Please respond to:

201 Parkway West
Duncan SC 29334
